

Margin and Padding #2

This one is a little nicer looking, and a little closer to something you might see in the real world. You'll need to change a little more than just margin and padding to make it look exactly right.

Desired outcome

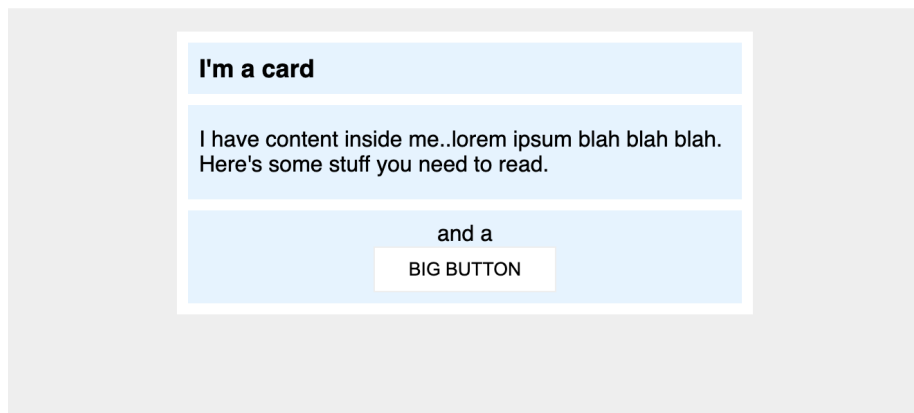

Figure 1: desired outcome

Self Check

Use this section to check your work. On *these* projects, your goal isn't to attain 100% pixel perfection, but to use the tools you've learned to get relatively close to the desired output.

- There is 8px between the edge of the card and its content (the blue sections).
- There is an 8px gap between each of the blue sections inside the card.
- The title of the card uses a 16px font.
- There are 8px between the title text and the edge of the title section.
- The content section has 16px space on the top and bottom, and 8px on either side.
- Everything inside the `.button-container` section is centered, and there is 8px padding.
- The Big Button is centered on its own line.
- The Big Button has 24px space on the sides, and 8px on top and bottom.
